Questions and Answers

Membership information you need to know

How do I decide if this plan is right for me?

Please read the information in this enrollment kit, including your Benefits Summary, which explains some of the benefits, limitations, features, and exclusions of this plan. Consider the amount you will pay in premiums, as shown on the Enrollment/Change Request form, and compare this plan to any other medical coverage options you may have. If you have any questions or need additional information, please call us toll-free at **1-888-772-9682**.

How do benefit limits work?

Limits put a cap or ceiling on what the plan will pay. Some benefits have a limit on the dollar amount and others on the number of services, or both. The plan will not pay for a service or supply once you have reached a limit on either the dollar amount or the number of services for that service or supply. Because there are limits on what is paid for certain kinds of services or visits, you may not be covered for some services or visits even though you have not reached your overall maximum. Your Benefits Summary, found in this enrollment kit, explains these limits, maximums, and other features of your plan, such as copays and deductibles. Please read it carefully so that you understand what your plan will pay before you enroll.

Who can enroll?

The following two classes are eligible to enroll 30 days from the date of their first assignment: Class 1: Insurance Overload Staffing Systems temporary employees and; Class 2: staff employees. If you are an eligible employee, you can also enroll your eligible dependents (except for Short Term Disability). Your eligible dependents are your lawful spouse or registered domestic partner and your children from birth until age 26, through any age if handicapped and unable to earn a living, or until they can no longer be legally declared as dependents. Dependent age and status requirements may vary by state.

When does coverage begin?

Coverage is effective on the first day of the pay period following the pay period in which a deduction occurs.

When do maximums and deductibles reset?

Annual deductibles, maximums, and limits add up throughout the coverage year, then reset and begin again on the anniversary date of your coverage year, July 5.

Will I get ID cards?

If you choose medical and/or dental coverage, you will get plastic member identification (ID) cards. Until you get your plastic IDs, please use the temporary member ID at lower right. This ID is valid after you enroll and your coverage begins.

How do I file a claim?

Claim forms are available from www.aetna.com/docfind/custom/aaah, by calling SRC toll-free at **1-888-772-9682**, or by writing to Strategic Resource Company, Attn: Claims Department, P.O. Box 14079, Lexington, KY 40512-4079.

If you do not enroll now, you cannot enroll until the next open enrollment, unless you have a qualifying life event.

Open enrollment begins June 1 and ends June 30, 2011.

IMPORTANT HEALTH CARE REFORM NOTICE: SPECIAL ENROLLMENT OPPORTUNITY FOR DEPENDENTS UP TO AGE 26

What if I miss a payroll deduction?

Your coverage will not begin until you have your first payroll deduction. Each payroll deduction pays for coverage for one payroll period. If you miss a payroll deduction after your coverage begins, you will not have coverage during the time that payroll deduction would cover, unless you pay the full missed premium directly to SRC.

Will my insurance be canceled if I don't make up a missed premium?

Once your coverage has begun, it will not be canceled because you do not make up a missed premium. However, no claims will be paid for losses or covered expenses that occur during the period for which premium is unpaid.

Can I pick which missed premiums I wish to pay?

No. Your missed premium payment will always be applied to the oldest gap in coverage within the last 45 days (from the postmark on your mailed payment). You cannot choose to cover a later gap in coverage if you have an earlier gap within the past 45 days from the date your payment is postmarked. To find out what gaps in coverage you may have, please call toll-free **1-888-772-9682**, Monday through Friday, 8 a.m. to 8 p.m. Eastern Time.

How long do I have to pay a missed premium?

You may pay for a gap in coverage that is up to 45 days old, from the date your payment is postmarked.

Can I pay just a part of a missed premium?

No. You must pay the full premium deduction that was missed in your paycheck, for all coverage you have. We cannot accept partial payments.

If I become ineligible or my employment ends, can I continue coverage with missed premium payments?

No. If your coverage terminates, you may not continue coverage by paying missed premiums. There may be other ways you can continue coverage, such as state continuation of coverage or COBRA, if eligible.

Is the Aetna Voluntary Limited Benefits Plan right for you?

Think about the following questions ...

- Have you ever skipped a visit with your doctor because you didn't have insurance?
- Have you let an illness go untreated until you were too sick to go to work?
- Do you rely on emergency room visits to get care because, without insurance, you don't have a family doctor?
- Do you buy over-the-counter medicines instead of seeing a doctor or having a prescription filled?
- Do you want to visit the same doctor who knows your medical history and can provide treatment that is right for you?

If you answered "yes" to any of these questions and most of your medical expenses are for minor illnesses and injuries, then the Limited Benefits plan may be right for you! If you have a chronic illness or expect to have significant medical needs in the next year, however, you may want to consider other health insurance options.

Six reasons why you should enroll in the Aetna Voluntary Limited Benefits Plan ...

1. **Affordable coverage** — Coverage at lower group rates from a top health insurance provider, Aetna.
2. **Guaranteed acceptance** — You cannot be turned down for coverage during your enrollment period.
3. **Aetna ID card and network discounts** — Carrying an Aetna ID card gives you access to discounts from participating medical providers that typically range from 30 to 50 percent.*
4. **No claims to file** — Network providers submit claims on your behalf, so you can pay just your portion of the cost at the time of service.
5. **Discounts and programs** — Access to services and discounts you can use every day are included in the plan at no extra charge (check out the back panel).
6. **Professional customer service** — Trained customer service representatives, toll-free numbers, multilingual services, online access to forms and additional information, all designed to make it easy for you.

Hi, I'm Cindy

Your employer is giving you the opportunity to enroll in the Aetna Voluntary Limited Benefits insurance plan. I'm here to explain the plan in more detail. The Aetna Voluntary plan is a limited benefits insurance plan created for employees without medical benefits.

This plan helps with the costs of everyday health care — things like doctor's office visits, prescriptions, and short hospital stays. It is not a traditional health plan (such as a major medical plan), which would be more comprehensive and would cover larger medical expenses resulting from major illnesses or accidents.

Let's take a few minutes and look at some important things you should know before you enroll in the plan.

All insurance is not alike — let's take a look!

Traditional health insurance and Aetna's Voluntary Limited Benefits Plan are both designed to help you get access to the health care you need while reducing your out-of-pocket expenses. But there are some important differences. Let's look at how traditional insurance and the Aetna Limited Benefits Plan are different and the same.

	Traditional health insurance	Aetna Limited Benefits Plan
Health needs covered	All situations including serious and chronic illnesses, and extensive hospital stays	Minor illnesses and short hospital stays
Benefit maximums	No annual maximum High or unlimited lifetime maximums	Annual maximums
Limitations	Few limits on specific types of services	Limits including dollar amounts per visit or service, or limits on number of visits
Discounts on medical fees	Yes	Yes
Office visit copays	Yes	Yes
Pharmacy discounts	Yes	Yes
Cost of coverage	Higher	Lower

Here are some insurance terms you need to know

Let me explain some of the terms you may see to help you better understand how your plan works.

Deductible — The amount you must pay for eligible expenses before the plan begins to pay benefits. A deductible may be per service, per visit, per supply or per coverage year.

Copay — A fixed amount that you must pay for a medical service after you have met any deductible. In some cases, you may be responsible for paying a copay as well as a percentage of the remaining charges.

Inpatient Charges — Charges while you stay as an inpatient at a hospital or other inpatient facility, including hospital room and board charges (daily room rate), inpatient professional services, and other hospital services.

Outpatient Charges — Charges for services and supplies provided at doctors' offices, free-standing clinics and outpatient facilities. They also include charges at a hospital when you are not admitted as an inpatient, including emergency room charges.

Benefits Summary — Overview of your particular plan's benefits. It explains how much the plan will pay for specific types of services, and lists exclusions and limitations of the plan. **Please read it carefully before you enroll.**

Understanding how the Aetna Voluntary Limited Benefits Plan works

The following is a general example of how an Aetna limited medical benefits plan works. Your plan works the same way, but may contain different **copays**, **deductibles**, or **limit amounts**. Always refer to your **Benefits Summary** for what your specific plan pays.

The column on the left shows what the plan will pay for **outpatient charges**. The column on the right shows what the plan will cover if you go into the hospital, which is also known as **inpatient charges**.

This example is based on using preferred, in-network providers.

Coverage for outpatient charges

(Refer to your Benefits Summary for specific copays, number of visits and dollar amount of coverage your plan pays.)

Doctor's office visits

Plan pays: 5 visits

You pay:

- A copay per visit
- For any visits beyond 5

This is the charge for the visit itself. It does not include any other office services.

Diagnostic, surgical, and other outpatient services and supplies

Plan pays: \$400

You pay:

- \$15 copay per visit
- Any amount beyond \$400

Emergency room visits

Plan pays: \$1,000

You pay:

- \$100 deductible per coverage year
- Any amount beyond \$1,000

Prescription drugs

Refer to the Benefits Summary for details.

Coverage for inpatient charges

The circle shows the the annual inpatient benefit maximum chosen by your employer. (Refer to your Benefits Summary for the total dollar amount.)

This part of the total benefit is a dollar limit on the services billed by the hospital other than room and board. (Refer to your Benefits Summary for the dollar amount limit on other hospital services.)

You pay:

- \$250 deductible
- 20% of the negotiated charge in-network up to the maximum benefit of your plan
- Any charges over the limit on other hospital services or the inpatient maximum

Language assistance

If you need assistance in any language, please call Member Services at **1-888-772-9682**.

Su necesita asistencia en cualquier idioma, por favor llame a Servicios al Cliente al **1-888-772-9682**.

If the cost of services exceeds the limits of the plan, then you are responsible for the excess amount.

Take a look at how the plan pays for some common health care services and saves you money

These examples show what you would pay with and without insurance.

How using a network provider can stretch your benefit dollars

The term “in-network” or “preferred provider” describes doctors, hospitals, and other health care professionals who work with Aetna to charge lower prices for medical services — usually 30 to 50 percent lower. This can save you a significant amount of money. Out-of-network providers have not contracted with Aetna for negotiated (lower) rates, so the amount you are charged may be higher than it would be if you saw an in-network provider.

And remember, while you should always seek the closest hospital emergency room for a medical emergency, you can reduce your out-of-pocket expenses even more by visiting in-network walk-in clinics or urgent care centers for non-emergency care.

Always check to see whether your doctor is in the network

Aetna’s DocFind® online directory helps you find a doctor or medical specialist in your area. For example, you can look for a pediatrician in your zip code or a doctor affiliated with a nearby hospital. It also includes maps and directions to a doctor’s office — and even lets you search by a doctor’s gender and languages spoken. Just visit www.aetna.com/docfind/custom/aaHC or call 1-888-772-9682.

Doctor’s office visit*

Sue went to a doctor to be treated for an illness. The doctor ordered X-rays and two prescriptions. The total charges for her treatment were \$450.

	Without insurance	With the Aetna Voluntary Limited Benefits Plan				
		Non-preferred provider (out of network)		Preferred provider (in network)		
	Billed charges	Plan pays	Sue pays	Negotiated network charge	Plan pays	Sue pays
Doctor’s office visit	\$150	\$112	\$38	\$70	\$60	\$10
Generic drug prescription**	\$30	\$20	\$10	\$5	\$0	\$5
Brand drug prescription**	\$120	\$35	\$85	\$20	\$0	\$10
Radiological examination	\$150	\$108	\$42	\$45	\$30	\$15
Totals	\$450	\$275	\$175	\$140	\$90	\$50

By using the Aetna Voluntary Limited Benefits Plan with an in-network doctor, Sue lowered the amount she paid out of pocket from \$450 to \$50, which saved her \$400.

Short hospital stay*

Tonya had minor surgery that required a two-day stay in the hospital. The total inpatient charges were \$10,500.

	Without insurance	With the Aetna Voluntary Limited Benefits Plan				
		Non-preferred provider (out of network)		Preferred provider (in network)		
	Billed charges	Plan pays	Tonya pays	Negotiated network charge	Plan pays	Tonya pays
BILL FROM THE HOSPITAL						
Room and board (2 days)	\$3,200	\$1,770	\$1,430	\$1,920	\$1,336	\$584
Other Hospital Services†	\$3,800	\$1,000†	\$2,800	\$2,280	\$1,000†	\$1,280
BILLS FROM INPATIENT PROFESSIONALS						
Anesthesiologist’s bill	\$800	\$480	\$320	\$480	\$384	\$96
Surgeon’s bill	\$2,700	\$1,620	\$1,080	\$1,620	\$1,296	\$324
Totals	\$10,500	\$4,870	\$5,630	\$6,300	\$4,016	\$2,284

By using the Aetna Voluntary Limited Benefits Plan with in-network providers, Tonya was able to lower her medical bill from \$10,500 to \$2,284 for an out-of-pocket cost savings of \$8,216.

Notice the savings for using an in-network doctor or hospital. If you use a health care provider who is not in Aetna’s network, you may be responsible for the entire difference between what the provider bills you and what the Aetna plan pays, which can be large.

*These are general examples meant to illustrate how the Aetna Voluntary Limited Benefits Plan could save you money. The examples may not be specific to your plan. Your plan may not pay the same amounts, and you may not need the same services. The amount of network discounts applied will vary based on negotiated provider rates. The amount the plan pays will vary based on plan design. These examples assume that annual deductibles have not been satisfied and inner plan limits are applied to certain services, which are reflected in the columns showing what the person owes.

**Presumes \$35 monthly benefit, with \$10 copay for generic, \$20 for branded.

†Illustrates limit on Other Hospital Services of \$1,000. Other Hospital Services are certain charges billed by a hospital when you are admitted as an inpatient, other than those charges for room and board. They do not include charges billed by medical professionals for services provided during an inpatient stay, such as surgeon’s fees. Please read your enrollment information carefully for further details.

Medical exclusions and limitations:

This plan does not cover all health care expenses and has exclusions and limitations. Members should refer to their booklet certificate to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan may contain exceptions to this list based on state mandates or the plan design purchased.

Medical pre-existing condition limitation:

This plan imposes a pre-existing condition exclusion. This means that if you have a medical condition before coming to our plan, you might have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care, or treatment was recommended or received within the 180 days prior to your enrollment in this plan. Generally, this 180-day period ends on the day before the medical plan waiting period begins (for example, on your date of hire). The pre-existing condition exclusion does not apply to pregnancy or to children under 19 years of age including a newborn child or a child who is enrolled in the plan within 30 days after birth, adoption, or placement for adoption.

This exclusion may last up to 365 days from the first day of your waiting period. However, you can reduce the length of this exclusion period by the number of days of your prior "creditable coverage." Most prior health coverage is creditable coverage and can be used to reduce the pre-existing condition exclusion period if you have not experienced a break in coverage of at least 63 days. To reduce the 365-day exclusion period by your creditable coverage, you should give us a copy of any certificates of creditable coverage you have. If you do not have a certificate but you have had prior health coverage, we will help you obtain a certificate from your prior plan or insurer. There are also other ways to show you have had creditable coverage. Please contact us at 1-888-772-9682 if you need help demonstrating creditable coverage.

Medical exclusions:

- All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents
- Any eye surgery mainly to correct refractive errors
- Cosmetic surgery, including breast reduction
- Custodial care
- Dental care and X-rays, unless medically necessary to repair an injury to the mouth, jaw or teeth resulting from an accident
- Donor egg retrieval
- Experimental and investigational procedures
- Hearing aids
- Immunizations for travel or work
- Infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies
- Nonmedically necessary services or supplies
- Orthotics
- Over-the-counter medications and supplies
- Reversal of sterilization
- Services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, or counseling
- Special duty nursing
- Treatment of alcoholism, drug abuse and mental/behavioral disorders (except where state mandated)

www.aetna.com/src

The Affordable Care Act prohibits health plans from applying arbitrary dollar limits for coverage for key benefits. This year, if a plan applies a dollar limit on the coverage it provides for key benefits in a year, that limit must be at least \$750,000.

Your health insurance coverage, offered by Aetna Life Insurance Company, does not meet the minimum standards required by the Affordable Care Act described above. Instead, it has the following annual limits:

Medical Coverage Limits

Most this plan will pay per coverage year for:

Doctors' office visits	5 visits
Emergency room visits	\$1,000
Hospital services other than daily room charge	\$1,000
Hospital daily room charge and Inpatient Professional Services	\$10,000
Diagnostic & surgical and other outpatient services & supplies	\$600

Most this plan will pay per month for prescriptions \$50

In order to apply the lower limits described above, your health plan requested a waiver of the requirement that coverage for key benefits be at least \$750,000 this year. That waiver was granted by the U.S. Department of Health and Human Services based on your health plan's representation that providing \$750,000 in coverage for key benefits this year would result in a significant increase in your premiums or a significant decrease in your access to benefits. This waiver is valid for one year.

If the lower limits are a concern, there may be other options for health care coverage available to you and your family members. For more information, go to: www.HealthCare.gov.

If you have any questions or concerns about this notice, please contact SRC, an Aetna company, at 1-888-772-9682.

Some states offer a Consumer Assistance Program to help you better understand your health coverage options. For more information, please go to: www.HealthCare.gov/news/factsheets/capgrants_states.html

Generic drugs	\$10 copay	50%

To use your prescription benefit at a preferred pharmacy:
A) Present your Aetna identification (ID) card to the pharmacist.
B) You receive a discount at the point of sale and pay the applicable copay (and any balance over your maximum benefit).

To use your prescription benefit at a non-preferred pharmacy:
A) Pay the full amount charged by the pharmacy.
B) Submit a claim form to Aetna Pharmacy Management (www.AetnaPharmacy.com) for reimbursement.

When you get a covered prescription at a non-preferred pharmacy, you pay the full price and must send in a claim form for reimbursement. When you get a covered prescription at a preferred pharmacy, you pay the discounted price and do not have to send in a claim form. To find a preferred pharmacy, log on to **www.AetnaPharmacy.com**.

Covers only medical prescriptions, except for dental prescriptions issued in connection with treatment resulting from a covered accident.

Medicare Part D Notice: This prescription drug benefit does not meet the criteria for Medicare Part D coverage; it does not match up to the plan offered under Medicare Part D.

To find out whether a provider is in Aetna's network (a **preferred provider**), use DocFind at **www.aetna.com/docfind/custom/aahc**.

Out of area: If there is not a preferred provider in your area, the plan will treat a service from a non-preferred provider as if that provider were a preferred provider for purposes of determining your copay, coinsurance and deductible. You remain responsible, however, for any amount that a non-preferred provider may bill you above the recognized charge. Please note that if you travel to an area that has a preferred provider but use a non-preferred health care provider, you will not be eligible for preferred provider benefits.

Medical emergency: Benefits for emergency room services will be paid at the preferred provider rate, regardless of whether the provider is preferred or non-preferred. The plan will pay the entire amount of the bill from a non-preferred provider until your plan limits for that type of service are exhausted. You remain responsible, however, for any amount above your plan limits.

Medical Exclusions and Limitations

This plan does not cover all health care expenses and has exclusions and limitations. Members should refer to their booklet certificate to determine which health care services are covered and to what extent. The following is a **partial list** of services and supplies that are generally *not covered*. **However, your plan may contain exceptions to this list based on state mandates or the plan design purchased.**

Medical Pre-existing Condition Limitation:

This plan imposes a pre-existing condition exclusion. This means that if you have a medical condition before coming to our plan, you might have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care, or treatment was recommended or received within the 180 days prior to your enrollment in this plan. Generally, this 180-day period ends on the day before the medical plan waiting period begins (for example, on your date of hire). The pre-existing condition exclusion does not apply to pregnancy or to members under 19 years of age including a newborn child or a child who is enrolled in the plan within 30 days after birth, adoption, or placement for adoption.

This exclusion may last up to 365 days from the first day of your waiting period. However, you can reduce the length of this exclusion period by the number of days of your prior "creditable coverage." Most prior health coverage is creditable coverage and can be used to reduce the pre-existing condition exclusion period if you have not experienced a break in coverage of at least 63 days. To reduce the 365-day exclusion period by your creditable coverage, you should give us a copy of any certificates of creditable coverage you have. If you do not have a certificate but you have had prior health coverage, we will help you obtain a certificate from your prior plan or insurer. There are also other ways to show you have had creditable coverage. Please contact us at **1-888-772-9682** if you need help demonstrating creditable coverage.

Terms defined

A service or supply is **medically necessary** if it is determined by Aetna to be appropriate for the diagnosis, care or treatment of the disease or injury involved. See the plan documents for the complete definition.

A **copayment** (or **copay**) is a fixed amount that you must pay for a medical service after you have met any deductible. In some cases, you may be responsible for paying a copay as well as a percentage of the remaining charges.

In many instances, the plan requires that a deductible is met before a benefit is paid. A **deductible** is the amount you must pay for eligible expenses before the plan begins to pay benefits. A deductible may be per service, per visit, per supply or per coverage year.

Once the **family deductible** per coverage year is met, all family members will be considered to have met their deductible. You will have met your **family deductible** when two covered family members have each fully paid their own deductibles in a coverage year.

Inpatient charges are all charges incurred when you are admitted as an inpatient at a hospital or other inpatient facility, including hospital room and board charges (daily room rate), Inpatient Professional Services, and Other Hospital Services.

Other Hospital Services are charges for certain services and supplies billed by a hospital when you are admitted as an inpatient, other than those charges for room and board. These charges may be significant and may include, but are not limited to: pharmaceutical, medical and surgical supplies and devices; lab tests and x-rays; and operating and recovery room expenses.

Inpatient Professional Services are charges billed by surgeons, physicians, radiologists, pathologists and anesthesiologists for services provided during an inpatient stay.

Outpatient charges are charges billed for services and supplies provided at doctors' offices, free-standing clinics and outpatient facilities. They also include charges at a hospital when you are not admitted as an inpatient, including emergency room charges.

A **Negotiated Charge** is the maximum amount that a preferred provider has agreed to charge for a covered visit, service, or supply. After your plan limits have been reached, the provider may require that you pay the full charge rather than the negotiated charge.

A **Recognized Charge** is the amount that Aetna recognizes as payable by the plan for a visit, service, or supply. For non-preferred providers (except inpatient and outpatient facilities and pharmacies), the **Recognized Charge** generally equals the 80th percentile of what providers in that geographic area charge for that service, based on the MDR database from Ingenix. This means that 80% of the charges in the database for geographic area are that amount or less – and 20% are more – for that service or supply. For preferred providers, the **Recognized Charge** equals the **Negotiated Charge**. A non-preferred provider may require that you pay more than the **Recognized Charge**, and this additional amount would be your responsibility.

Percentage of remaining charges you pay refers to the percentage of **Negotiated** or **Recognized Charges** you pay after you have fulfilled the deductible and/or copay and before the benefit maximum is reached. This is also known as member coinsurance. A non-preferred provider may require that you pay more than the **Recognized Charge**, and this additional amount would also be your responsibility. Once the applicable benefit maximum has been reached, you will be responsible for 100% of the remaining balance.

The federal Patient Protection and Affordable Care Act (PPACA) and some state laws mandate that certain **preventive services** are to be covered when you visit a preferred (in-network) provider. Covered preventive services will be paid by in-network benefits under your plan according to the nature of the service, such as doctor's office visits, or diagnostic, surgical and other outpatient services. You are not required to pay a deductible, a copay, or a percentage of the remaining charges for preventive services from a preferred (in-network) provider. Please refer to the plan documents for more information.

Questions and answers

How do benefit limits work?

Limits put a cap or ceiling on what the plan will pay. Some benefits have a limit on the dollar amounts and others on the number of services, or both. The plan will not pay for a service or supply once you have reached a limit on either the dollar amounts or the number of services for that service or supply. Because there are limits on what is paid for certain kinds of services or visits, you may not be covered for some services or visits even though you have not reached your overall maximum. **Before you enroll in the plan, please read the benefits chart in the previous pages carefully to understand these limits and consider what effects they may have.**

Will the plan always pay up to the maximum benefits per coverage year?

No. How much the plan pays depends on the type and amount of the health care you receive. Some types of charges may have limits that are reached before the overall maximum they are a part of is reached. This means that the plan may no longer pay for certain types of charges you continue to have, even though the overall maximum benefit has not been reached. Please read the benefits chart in the previous pages carefully to understand what types of charges may be limited before the overall maximums in question are reached.

How does this limited benefits insurance plan differ from a traditional major medical health plan?

There are important differences in what the plan will pay and what the premium costs. Both types of plans cover many types of services and supplies. However, this limited benefits insurance plan has a lower maximum benefit and places limits on how much it will pay for categories of services or supplies. Once you have used up the overall maximums or limits on specific benefits, the plan will not pay any more. And unlike most major medical plans, this limited benefits insurance plan does not have catastrophic coverage or a limit on your out-of-pocket expenses. This means that you may have large out-of-pocket costs if you have a serious or chronic medical condition. Because traditional major medical health plans provide more coverage, they cost more.

What will I pay up front when I go to a healthcare provider?

A preferred doctor, hospital or other healthcare provider may require you to pay charges for which you are responsible in advance. This could include your copay, deductible, percentage of charges the plan does not pay (coinsurance), charges for services excluded under the plan, and charges in excess of your coverage limits. A non-preferred provider may require that you pay all charges in advance, and it would be up to you to submit a claim for reimbursement for any charges the plan may pay.

What are my rights for childbirth?

Under the Newborns' and Mothers' Health Protection Act (NMHPA), your plan will treat your hospital stay for the first 48 hours after a vaginal delivery (or 96 hours after cesarean section) as **medically necessary**. Your plan's overall benefit maximum, limits and deductibles will determine how much the plan will pay. The state in which you live, you work, or your plan was underwritten may have additional mandated rights regarding childbirth. Please refer to the plan documents.

What are my rights for reconstructive surgery after a mastectomy?

Under the Women's Health and Cancer Rights Act, your plan will consider as **medically necessary** post-mastectomy reconstruction of the same breast, or reconstruction of the other breast to achieve symmetry, prostheses, and treatment of physical complications of all stages of mastectomy including lymphedema. Your plan's overall benefit maximum, limits and deductibles will determine how much the plan will pay. The state in which you live, you work, or your plan was underwritten may have additional mandated rights regarding a mastectomy. Please refer to the plan documents.

Plan of Benefits

Your plan of benefits will be determined by your plan sponsor and underwritten by the Aetna Life Insurance Company, 151 Farmington Avenue, Hartford, Connecticut, 06156. The benefits and main points of the Group Policy for persons covered under your plans of benefits will be set forth in the Booklet-Certificate which will be provided to you at a later date.

Cost Sharing

You are responsible for any copayments, coinsurance and deductibles for covered services. These obligations are paid directly to the provider or facility at the time the service is rendered. Copayment, coinsurance and deductible amounts are listed in your benefits summary and plan documents.

How Aetna Compensates Your Health Care Provider

All the physicians are independent practicing physicians that are neither employed nor exclusively contracted with Aetna. Individual physicians and other providers are in the network by either directly contracting with Aetna* and/or affiliating with a group or organization that contract with us.

Participating providers in our network are compensated in various ways:

- Per individual service or case (fee for service at contracted rates).
- Per hospital day (per diem contracted rates).

Advance Directives

An advance directive is a legal document that states your wishes for medical care. It can help doctors and family members determine your medical treatment if, for some reason, you can't make decisions about it yourself.

There are three types of advance directives:

- Living will - spells out the type and extent of care you want to receive.
- Durable power of attorney - appoints someone you trust to make medical decisions for you.

- Do-not-resuscitate order - states that you don't want to be given CPR if your heart stops or if you stop breathing.

You can create an advance directive in several ways:

- Get an advance medical directive form from a health care professional. Certain laws require health care facilities that receive Medicare and Medicaid funds to ask all patients at the time they are admitted if they have an advance directive. You don't need an advance directive to receive care. But we are required by law to give you the chance to create one.
- Ask for an advance directive form at state or local offices on aging, bar associations, legal service programs, or your local health department.
- Work with a lawyer to write an advance directive.
- Create an advance directive using computer software designed for this purpose.

Claims Payment for Nonparticipating Providers and Use of Claims Software

If your plan includes coverage for out-of-network services, and you obtain coverage under this portion of your plan, you should be aware that Aetna generally determines payment for an out-of-network provider by referring to (i) commercially available data reflecting the customary

* Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies.

amount paid to most providers for a given service in that geographic area or (ii) by accessing other contractual arrangements. If such data is not commercially available, our determination may be based upon our own data or other sources. Aetna may also use computer software (including ClaimCheck®) and other tools to take into account factors such as the complexity, amount of time needed and manner of billing. You may be responsible for any charges Aetna determines are not covered under your plan.

Technology Review

Aetna reviews new medical technologies, behavioral health procedures, pharmaceuticals and devices to determine which ones should be covered by our plans. And we even look at new uses for existing technologies to see if they have potential. To review these innovations, we may:

- Study medical research and scientific evidence on the safety and effectiveness of medical technologies.
- Consider position statements and clinical practice guidelines from medical and government groups, including the federal Agency for Health care Research and Quality.
- Seek input from relevant specialists and experts in the technology.
- Determine whether the technologies are experimental or investigational.

You can find out more on new tests and treatments in our Clinical Policy Bulletins. You can find the bulletins at www.aetna.com, under the "Members and Consumers" menu.

Medically Necessary

"Medically necessary" means that the service or supply is provided by a physician or other health care provider exercising prudent clinical judgment for the purpose of preventing, evaluating, diagnosing or treating an illness, injury or disease or its symptoms, and that provision of the service or supply is:

- In accordance with generally accepted standards of medical practice;
- Clinically appropriate in accordance with generally accepted standards of medical practice in terms of type, frequency, extent, site and duration, and considered effective for the illness, injury or disease;
- Not primarily for the convenience of you, or for the physician or other health care provider; and
- Not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the illness, injury or disease.

For these purposes "**generally accepted standards of medical practice**" means standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community, or otherwise consistent with physician specialty society recommendations and the views of physicians practicing in relevant clinical areas and any other relevant factors.

Clinical Policy Bulletins

Aetna's CPBs describe Aetna's policy determinations of whether certain services or supplies are medically necessary or experimental or investigational, based upon a review of currently available clinical information. Clinical determinations in connection with individual coverage decisions are made on a case-by-case basis consistent with applicable policies.

Aetna's CPBs do not constitute medical advice. Treating providers are solely responsible for medical advice and for your treatment. You should discuss any CPB related to your coverage or condition with your treating provider.

While Aetna's CPBs are developed to assist in administering plan benefits, they do not constitute a description of plan benefits. Each benefit plan defines which services are covered, which are excluded, and which are subject to dollar caps or other limits. You and your providers will need to consult the benefit plan to determine if there are any exclusions or other benefit limitations applicable to this service or supply.

Filing a Complaint or Appeal

Aetna is committed to addressing your coverage issues, complaints and problems. If you have a coverage issue or other problem, call Member Services at the toll free number on your ID card. If Member Services is unable to resolve your issue to your satisfaction, it will be forwarded to the appropriate department for handling.

If you are dissatisfied with the outcome of your initial contact, you may file an appeal. Your appeal will be decided in accordance with the procedures applicable to your plan and applicable state law. Refer to your plan documents for further details regarding your plan's appeal procedure.

About Coverage Decisions

Sometimes we receive claims for services that may not be covered by your health benefits plan or that aren't in line with the terms of your plan. It can be confusing - even to your doctors. Our job is to make coverage decisions based on your specific benefits plan. If a claim is denied, we'll send you a letter to let you know. If you don't agree you can file an appeal. To file an appeal, follow the directions in the letter that explains that your claim was denied. Our

appeals decisions will be based on your plan provisions and any state and federal laws or regulations that apply to your plan. You can learn more about the appeal procedures for your plan from your plan documents.

External Review

Aetna established an external review process to give you the opportunity of requesting an objective and timely independent review of certain coverage denials. Once the applicable appeal process has been exhausted, you may request an external review of the decision if the coverage denial, for which you would be financially responsible, involves more than \$500* and is based on lack of medical necessity or on the experimental or investigational nature of the proposed service or supply. Standards may vary by state, if a state-mandated external review process exists and applies to your plan.

An Independent Review Organization (IRO) will assign the case to a physician reviewer with appropriate expertise in the area in question. After all necessary information is submitted, an external review generally will be decided within 30 calendar days of the request.

Expedited reviews are available when your physician certifies that a delay in service would jeopardize your health. Once the review is complete, the plan will abide by the decision of the external reviewer. The cost for the review will be borne by Aetna (except where state law requires you to pay a filing fee as part of the state mandated program).

Certain states mandate external review of additional benefit or service issues; some may require a filing fee. In addition, certain states mandate the use of their own external review process for medical necessity and experimental/ investigational coverage decisions. For further details regarding your plan's appeal process and the availability of an external review process, call the Member Services toll-free number on your ID card. You may obtain an external review request form from Member Services. You also may call your state insurance or health department or consult their website for additional information regarding state mandated external review procedures.

Georgia

Members can call 1-888-772-9682 (toll-free) to confirm that the preferred provider in question is in the network and/or accepting new patients.

Members have direct access to the participating primary Ob/Gyn provider of their choice and do not need a referral from their PCP for a routine well-woman exam, including a Pap smear when appropriate and an unlimited number of visits for gynecologic problems and follow-up care.

Members also have direct access to the participating dermatologist provider of their choice and do not need a referral from their primary care physicians to access dermatologic benefits covered under their health plan.

A summary of any agreement or contract between Aetna and any health care provider will be made available upon request by calling the Member Services telephone number on your ID card. The summary will not include financial agreements as to actual rates, reimbursements, charges, or fees negotiated by Aetna and the provider. The summary will include a category or type of compensation paid by Aetna to each class of health care provider under contract with Aetna.

Consumer Choice Option

The Consumer Choice Option is available for Georgia residents enrolled in certain Aetna managed care plans. Under this benefit option, with certain restrictions required by law and an additional monthly premium cost, members of certain Aetna managed care plans may nominate an out-of-network provider to provide covered services for themselves and their covered family members. Your benefits and any applicable copayments will be the same as for in-network providers. The out-of-network provider must agree to accept the Aetna compensation, to adhere to the plan's quality assurance requirements, and to meet all other reasonable criteria required by the plan of its in-network participating providers. It is possible the provider you nominate will not agree to participate.

This option is available for an increased premium in addition to the premium you would otherwise pay. Your increased premium responsibility will vary depending on whether you have a single plan or family coverage, and on the type of insurance, riders, and coverage. Exact pricing and any additional information can be obtained by calling 1-888-772-9682. Please have your Aetna member ID card available when you call.
